

EVIDENCE AND TRUTH

As Peter exhorts, *"be ready always to give an answer to every man that asketh you a reason of the hope that is in you"* (1 Peter 3:15, KJV), we are reminded that the defense of the faith must be both faithful and accessible. With that in mind, we are grateful to report that all 19 lessons of the *Christian Evidences* course have now been recorded. Editing is expected to begin very soon.

This course has been especially meaningful to develop in Spanish. Presented as *Evidences in Favor of Christianity*, it is designed not only to strengthen believers, but also to reach those who may begin the study with doubt or uncertainty. Our prayer is that many will examine the evidence honestly and come to a knowledge of the truth.

We are also pleased to share that the series *Believe the Bible* is now available through buscandolaverdad.org. This three lesson program is focused on helping those who question God or the Bible to consider their position in light of clear and reasonable evidence. Since its release, it has already drawn encouraging interest from students and visitors.

Our new Video Editor and Graphic Designer completed the editing of *Believe the Bible* as his first project and is now working on *Creation Questions* and *Proof for God*. These efforts will be followed by the editing of the *Christian Evidences* course. We are thankful for how this addition is already strengthening the work and allowing for greater focus on teaching and development.

Lord willing, we will also be traveling to Memphis, Tennessee, to attend the **Memphis School of Preaching Lectures**. This is always a valuable opportunity to learn, to grow, and to personally thank many who encourage and support this work. As in previous years, we will have a table with information and sample materials available. If you plan to attend, we would be glad to greet you in person.

We are deeply grateful to those who faithfully support the School. Your prayers and generosity make it possible to continue producing sound biblical material in Spanish. If you would like to learn more or become involved, we would be honored to connect with you. Please continue praying for these efforts and visit spanishbibleschool.org, which has been recently updated with clearer ways to learn more about this work of the Lord.

We thank God for the opportunity to present evidence that points to His truth. May honest hearts examine, understand, and be led to a firm and saving faith.

May God bless you and your family richly today, and always!

To Him be the glory!
